

12th Annual CPS Egg Drop ~ Fri. June 2, 2017

Here's your chance to celebrate creative engineering and possibly win a \$25 i-Tunes gift card, courtesy of the CPS PTO!

READ ON TO SEE WHAT YOU NEED TO DO TO WIN!

Open to ALL 3rd through 8th grade CPS students.

Contestants: Please be sure to use the following set of rules as a **CHECKLIST**. Failure to meet any of the rules may result in being disqualified or getting a large point deduction.

PARENTS: PLEASE BE SURE TO GO THROUGH THESE RULES WITH YOUR CHILD! We receive MANY submissions, and we do not want to deduct points because of missing components!

DESIGN & CONTEST RULES:

- No more than one entry per student will be permitted.
- Every container must be brought to Mrs. Brenner's room (#31) on **WEDNESDAY, MAY 31st BETWEEN 8:15AM AND 8:45AM**, even if you are not in school on that date. *Absolutely no late entries will be accepted!*
- All capsules must be given a name. This name should be neatly written on the outside of the container. Each capsule should also be clearly labeled with the contestant's name and homeroom.
- No parachutes or restraining devices may be used. The container must drop and free fall to the target area.
- All containers will be inspected and weighed by judges before they are dropped.
- The egg must be placed into the container on-site. A maximum of 30 seconds will be allowed to place the egg into the container. Exceeding these time limits will lead to point deductions. If the egg is damaged during placement in the container, there will be points deducted. The contestant will have one other chance to place an egg in the container without breaking the egg.
 - *Note—Contestants will be given a pass to come back and load the Egg on June 2nd, which will be distributed by Mrs. Brenner when the capsule is handed in on Wednesday 5/31.*
- No egg may be dropped using a chicken as the capsule!!!
- No materials may be used that will shatter upon impact.
- A list of the materials used to construct your capsule **MUST** be turned in with your container and clearly labeled with the name of your capsule, as well as with your name and homeroom.
- No kits or pre-made designs may be used. The structure must be the individual's own feat of engineering!
