RE: Nut-Free Classrooms and Common Areas

Dear Parents,

There are students in every grade level at Clinton Public School who have allergies to nuts and nut products. These include almonds, Brazil nuts, cashews, hazelnuts, peanuts, pecans, pine nuts, sesame seeds and walnuts.

To keep these children safe and prevent the possibility of them coming in contact with nuts and nut products **all classrooms and common areas at Clinton Public School are nut-free.** Common areas include the art room, computer room, gym, hallways and library.

Nuts and nut products are allowed in the cafeteria so that children who do not have nut allergies may enjoy these foods. Nut-free tables are available for children with nut allergies. Any student with a nut-free lunch may sit at a table designated as nut -free.

Please contact your child's classroom teacher prior to sending in food to the classroom to be shared by all students.

All class treats must be pre-packaged and in the original container with the label of contents clearly visible. They must be totally free of nuts and nut products. Classroom treats are to be delivered by the parent directly to the teacher not brought in to school by a student.

Thank you in advance for your cooperation in this matter. Please share this information with your child. These guidelines will help to provide a safe environment for all of our students. Please contact me if you have any questions.

Best regards,

Mary Ellen Bowlby, RN
School Nurse
